Global

- **IAIS issues consultation on operational resilience objectives and toolkit**
The objectives seek to provide the [foundations](#) to support authorities in developing their approaches to supervise insurers' operational resilience. The development of a toolkit is underway. Deadline: Oct 11, 2024.
- **IAIS extends comment period on climate risk supervisory guidance consultation**
It extends the [consultation](#) period given the extensive stakeholder interest. The consultation included new supported material related to supervisory reporting and public disclosure. New deadline: Oct 28, 2024.

Europe

- **EBA issues final RTS on the FRTB**
It [aims](#) to align with the CRR3 and introduce changes on the treatment of foreign-exchange and commodity risk in the banking book, the profit and loss attribution test and the risk factor modellability assessment.
- **EBA issues no-action letter on the FRTB**
It [recommends](#) that competent authorities should not prioritize any enforcement action regarding the amendments to the TB/BB boundary or those related to the IRT provisions included in the CRR3.
- **ECB issues consultation on draft guide on governance and risk culture**
It replaces the 2016 [supervisory statement](#), clarifying supervisory expectations and sharing good practices for internal governance. Deadline: Oct 16, 2024.
- **EBA issues consultation on resolution planning reporting framework**
Draft ITS overhauling the [resolution planning](#) framework to ensure that resolution authorities have the data they need. Among other issues, it expands the information requested on some topics. Deadline: Oct 30, 2024.

- **ESAs issue final report on draft RTS on subcontracting under DORA**

They [aim](#) to enhance banks' digital operational resilience by establishing how to determine and assess the conditions for subcontracting ICT services that support critical functions under DORA.

- **ESMA issues consultation package on MiFIR review**

It [aims](#) to collect views on different issues: equity transparency, the notification of investment firms acting as Systematic Internalizers, volume cap or input/output data for the equity CTP. Deadline: Sept 30, 2024.

- **EBA consults on uniform reporting under SEPA and issues statement to payment service providers**

With the proposed [standardization](#), it will be able to monitor the effects of changes to SEPA regulation on the fees paid by customers as well as instant and non-instant credit transfers. Deadline: October 31, 2024.

- **EBA issues results from exercise on creditworthiness assessment practices of Non-Bank Lenders**

It seeks insight into the extent to which NBLs contribute to [over-indebtedness](#). It finds that, while some NBLs service population segments with limited access to traditional banks, a significant number of them apply inadequate practices for information gathering during their creditworthiness assessments.

- **EBA issues final ITS specifying data collection for the 2025 benchmarking exercise**

The [most significant change](#) is in the area of market risk framework, where the EBA is proposing to expand to all asset classes the alternative standardized approach (ASA) validation portfolios compared to 2024.

- **EBA issues report with priorities for resolution authorities**

It sets three [priorities](#) for resolution authorities and banks for 2025: i) operationalization of the resolution tools, ii) liquidity strategies in resolution, and iii) management information system for valuation.

- **EBA updates information for the identification of G-SIIs**

Using end-2023 data, it updates 13 [systemic importance](#) indicators and underlying data for the 33 largest EU institutions. The information is used to identify a subset of banks as G-SIIs.

- **ECB harmonizes rules for Eurosystem collateral management**

It [harmonizes](#) rules and arrangements for the mobilization and management of collateral in Eurosystem credit operations, marking a step towards further financial integration in the euro area and the CMU.

- **ESMA issues opinion on global crypto firms and non-EU execution venues**

It [addresses](#) the risks of firms seeking authorization under MiCA for part of their activities (crypto brokerage) while keeping part of their activities (intra-group execution venues) outside the EU regulatory scope.

- **EBA and ECB issue joint report on payment fraud**

It [assesses](#) payment fraud data reported semi-annually by payment service providers across the EEA for a variety of payment instruments, such as credit transfers and card payments.

- **SRB issues its MREL dashboard for Q1 2024**

[Highlights](#): i) average MREL final target (including CBR) was 28% TREA, ii) aggregate total MREL shortfall is less than 0.1% TREA (only 6 banks with shortfalls), iii) SRB banks issued €135 bn of MREL instruments.

- **ESMA issues information for bond liquidity assessment and systematic internalizer calculation**

It [published](#) the liquidity assessment of bonds based on a quarterly assessment of quantitative liquidity criteria and the data for the quarterly systematic internalizer calculations for instruments under MiFID II and MiFIR.

It establishes cooperation arrangements, including the exchange of information, regarding CCPs which are established in Canada and authorized or recognized by the British Columbia Securities Commission.
- **ESMA publishes translations of its guidelines on funds' names**
It protects investors against unsubstantiated sustainability claims in fund names, and provides asset managers with clear criteria to assess their ability to use ESG in fund names. Application: Nov 21, 2024.
- **EIOPA publishes report on the collaboration of insurance supervisory authorities**
It published a follow-up report to the 2020 Peer Review on EIOPA's Decision regarding the collaboration of insurance supervisory authorities. It finds that 33 out of 50 recommended actions were completed.
- **EIOPA consults on new proportionality regime under Solvency II**
It covers two aspects, namely, how to classify insurance undertakings as small and non-complex and the conditions for granting similar proportionality measures. Deadline: Oct 25, 2024.
- **EIOPA consults on the capital treatment of insurers' direct exposure to CCPs in the standard formula**
It considers (re)insurers in the EEA historically used CCPs indirectly through clearing members for derivatives transactions, while Solvency II does not address direct exposures. Deadline: Oct 23, 2024.

Spain

- **CNMV publishes market stress indicator for the first half of the year**
It finds the highest stress levels in money and bond markets, as a result of higher interest rate volatility, as well as the extension of certain risk premiums, and volatility in financial intermediaries.

United Kingdom

- **BoE issues statement regarding Basel 3.1**
It will publish the second and last set of near-final Basel 3.1 rules on Sep 12, 2024. Additionally, it will also publish a consultation on the capital-related aspects of its strong and simple regime for smaller firms.
- **PRA issues consultation on its approach to international banks**
It updates its approach to supervise international banks in the UK, including additional criteria to assess whether an international bank should operate as a branch or a subsidiary. Deadline: Oct 30, 2024.
- **PRA publishes policy statement on the leverage ratio**
It introduces new rules to the leverage ratio treatment of omnibus account reserves and makes minor amendments to the leverage ratio disclosure and reporting instructions. Application: Aug 5, 2024
- **BoE publishes resolvability assessment of major UK banks**
It is the second assessment of the 8 major UK banks, and it finds that they have continued to make progress in improving their preparations for resolution, including preparations in their everyday business.
- **BoE issues discussion paper on innovation in money and payments**
It consults on the next steps on how to deliver an ambitious agenda for the UK payments landscape. It also details the impact of the rapid innovations in payments on monetary and financial stability objectives. Deadline: Oct 31, 2024.

- **BoE and PRA publish annual reports**

They publish their [separate](#) annual reports and [accounts](#), providing information on the activities and finances for the preceding year.

United States

- **Agencies publish final guidance on large bank resolution planning**

Joint [guidance](#) to large banks to further develop their resolution plans. It is organized around key areas such as capital, liquidity and operational capabilities. New deadline for submission of resolution plans: Oct 1, 2025.

- **FDIC issues consultation on brokered deposits**

Proposal to strengthen the safety of the [banking system](#), to ensure a uniform and consistent reporting of brokered deposits, and to reduce operational challenges and reporting burdens on insured institutions. Deadline: 60 days after publication in the Federal Register.

- **FRB issues statement on individual capital requirements**

Following the [latest stress test](#), it announces the final individual capital requirements for all large banks. Effective date: Oct 1, 2024.

- **FDIC consults rule on parent companies of industrial banks and industrial loan companies**

It seeks to clarify and enhance the framework to supervise [industrial banks](#), mitigate risks to the deposit insurance fund, and provide transparency. Deadline: 60 days after publication in the Federal Register.

- **FDIC issues request for information on deposits**

It solicits comments on [deposit data](#) that is not currently reported in the Call Report or other regulatory reports, including for uninsured deposits. Deadline: 60 days after publication in the Federal Register.
